

## The C.A.R.E. Channel<sup>®</sup> Continuous Ambient Relaxation Environment<sup>®</sup>

*"The C.A.R.E. CHANNEL has been a great addition to the healing environment of Craig Hospital. We care exclusively for patients with spinal cord and traumatic brain injuries. The soothing music and peaceful scenes help our patients calm down and sometimes even help them sleep. It is a valuable tool for our staff and a wonderful resource for patients and families."*

**Terry Chase, R.N., Ph.D.**  
Director of Patient Education  
Craig Hospital,  
Englewood, Colorado

**F**or over a decade, The C.A.R.E. CHANNEL has been used by healthcare organizations committed to improving the quality of the patient experience by offering the finest and most effective environmental programming through patient television.

Bringing the therapeutic environment immediately to the patients' bedside, The C.A.R.E. CHANNEL from Healing HealthCare Systems is a welcome alternative to commercial television and disturbing hospital sounds.

Stunning nature imagery together with soothing instrumental music creates a window to the outdoors for confined patients and anxious

family members. Responsive to the natural cycles of day and night, the daytime programming is followed in the late evening hours by a midnight starfield that can assist patients who have difficulty sleeping.

The only environmental programming specifically produced for the healthcare setting, The C.A.R.E. CHANNEL is talk-free, commercial-free, and effective for patients of any age, gender, or cultural background.

### Benefits

Available in digital format, The C.A.R.E. CHANNEL — which includes 70-hours of non-repetitive content, 24 hours a day, seven days a week — offers patients and healthcare professionals a variety of benefits through a continuous healing environment.

### For patients, The C.A.R.E. Channel:

- Promotes relaxation and improves restfulness
- Reduces anxiety
- Enhances pain management protocols
- Supports and comforts patients during the full 24-hour cycle with distinct day- and night-time programming

### For staff, The C.A.R.E. Channel:

- Reduces staff stress by extending care to patients during the long hours between clinical interventions when the nurse is absent
- Supports confidentiality and privacy by creating an auditory veil with music from The C.A.R.E. CHANNEL and C.A.R.E.-WITH-MUSIC<sup>®</sup>
- Averages only pennies per day, per bed, to broadcast throughout the hospital

C.A.R.E. WITH GUIDED IMAGERY<sup>®</sup> is a supplemental channel that can be added to your C.A.R.E. Channel subscription. Companion programming formats — C.A.R.E.-WITH-MUSIC<sup>®</sup> for public areas and C.A.R.E.-ON-HOLD<sup>®</sup> for the telephone hold system are also available. C.A.R.E. CHANNEL subscribers get C.A.R.E.-ON-HOLD at no additional charge.

Healing HealthCare Systems produces The C.A.R.E. CHANNEL and other products and services that help healthcare organizations create clinical environments that are directly supportive of healing and recovery.
