

Look, Listen,

Relax, Learn,

Heal

The Medcalm Channel brings video programs by the foremost names in integrative and mind-body medicine into virtually any healthcare setting. Patients, families and care givers have 24/7 access to a library of original and licensed programs. From their hospital beds and waiting room, patients can select from music, sound healing, relaxation, and informative programs by pre-eminent healers. Our original programs, created in collaboration with authentic healing professionals, employ breathing, meditation and visualization techniques to guide patients to a deep sense of inner tranquility. Relaxation and healing programs also support specific conditions, treatments or care protocols, for example: maternity, chemotherapy, anxiety, pain and insomnia.

Promote wellness and empower patients with integrative healing and informational video programming via 24/7 CCTV or Interactive Patient Care networks in waiting rooms, patient rooms or treatment suites.

- Medcalm Channel programs are designed specifically to calm, comfort and lessen pain, and to promote wellness and positive patient outcomes.
- When patients need the Medcalm Channel, it's there 24/7 via CCTV, cable systems and most interactive patient care companies. Choose between video-on-demand or a looped format for CCTV.
- Medcalm bring the household names in mind-body healing, integrative medicine and relaxation into hospital environments.
- Positive, patient-focused programming creates a healing environment in waiting rooms, treatment suites, and patient rooms.
- Choose from an ever-expanding library of audio visual program packages or individual programs including custom and care-specific programs.
- All programming is contracted under a licensing agreement for public broadcasts as required by federal law.
- Medcalm Channel is easy to install, works with your current in-hospital entertainment systems and provides one-on-one relaxation and comfort for pennies a day.
- Medcalm introduces the first **pediatric** content for relaxation, healing and fun.
