

THIL20 Hook Mount with Power Supply Bracket for 20" LCD

These instructions do not include installing the hook-style wall mount.

1. Attach the adaptor plate to the monitor with screws appropriate for your monitor.
M4 x 12mm x .7P are provided.
2. Thread the four plastic ties through the slots on the bracket.
3. Rest the power supply in the bracket with the cable for the monitor at the top and the power receptacle at the bottom.
4. Plug the power supply into the monitor.
5. Coil the excess cable on top of the power pack and secure the cable and power pack to the bracket with the plastic ties.
6. Plug the AC power cord into the power supply receptacle.
7. Hook the assembly into the wall mount.
