Patient Education Video Producers

**AHROQ**
Address: 1290 Silas Deane Highway, Suite 4A, Wethersfield, CT 06109
Phone: 860-632-2008

The Agency for Healthcare Research and Quality’s (AHROQ) mission is to produce evidence to make health care safer, higher quality, more accessible, equitable, and affordable, and to work within the U.S. Department of Health and Human Services and with other partners to make sure that the evidence is understood and used.

**American Heart Association**
Address: 7272 Greenville Ave., Dallas, TX 75231
Phone: 800-AHA-USA1
Email: review.personal.info@heart.org

Our line of patient and consumer education brochures are for patients and groups at-risk to promote healthy living and managing and preventing disease. Topics include nutrition and weight management, smoking, cholesterol, high blood pressure, physical activity, controlling risk factors, cardiovascular conditions, treatments, procedures, and stroke. Patients will learn about common cardiovascular conditions and get advice for helping friends or family members who have recently experienced heart or stroke procedures.

**Cambridge Films**
Address: 200 American Metro Blvd Suite 124, Hamilton, NJ 08619
Phone: 800-257-5126
Email: custserv@films.com

Educators count on Cambridge to provide outstanding media resources that support the development of the whole student, both in and out of the classroom. Topics include: Aging, Death & Dying; Child & Teen Health; Disabilities; Diseases & Disorders; Emergency Medicine; General Health Care & Wellness; K-8 Health; Medical Care & Treatment; Reproduction & Neonatology.
Patient Education Video Producers

**Centers for Disease Control and Prevention**  
**Address:** 1600 Clifton Road, Atlanta, GA 30329  
**Phone:** 800-CDC-INFO (800-232-4636)

Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same. CDC increases the health security of our nation. As the nation’s health protection agency, CDC saves lives and protects people from health threats. To accomplish our mission, CDC conducts critical science and provides health information that protects our nation against expensive and dangerous health threats, and responds when these arise.

**Emmi Solutions**  
**Address:** 300 West Adams Street, Suite 1200, Chicago, IL 60606  
**Phone:** 800-CDC-INFO (800-232-4636)  
**Email:** info@emmisolutions.com

Emmi programs are a series of presentations that make complex medical information easy to understand. Using a soothing voice, animated graphics and easy-to-read text, Emmi programs take you through your upcoming procedure or help you manage your chronic condition.

**ExitCare**  
**Address:** 576 Bielenberg Drive, Suite 180, Woodbury, MN 55125  
**Phone:** 800-694-6669  
**Email:** customerservice@exitcare.com

ExitCare content is peer-reviewed by medical professionals in common specialties, and designed to influence the behavior of patients and empower family members. ExitCare’s editorial review process ensures that the evidence-based content found in ExitCare OnScreen is engaging, easy-to-understand, and consistent with current medical practices and guidelines.

**Healing Healthcare Systems**  
**Address:** 6121 Lakeside Drive, Suite 200, Reno, NV 89511  
**Phone:** 800-348-0799  
**Email:** info@healinghealth.com

By bringing music and nature to the bedside, Healing HealthCare Systems has helped transform patient care with the C.A.R.E.® Channel’s relaxation programming for patient television. The C.A.R.E.® Channel’s stunning nature video and original instrumental music provide a therapeutic tool for use at the patient bedside, waiting areas, and public spaces in acute care hospitals, residential care facilities, hospice/palliative care units, cancer centers, children’s hospitals, and rehabilitation centers. C.A.R.E.® with Guided Imagery uses a voice over to stimulate patients’ active imagination and bring about responses in their bodies that can accelerate the healing process. Guided imagery has been shown to reduce the amount of pain medication required, thus reducing side effects and decreasing recovery time.
